

**Symposium for early career plant scientists  
3<sup>rd</sup> March, 2020. Uppsala.**

**PROGRAM**

9.00-9.10 Introduction by the Linnean Centre coordinator

9.10-9.40 Mathias Scharmann: ***“New insights into plant evolution from the genomic perspective”***. University of Lausanne, Switzerland.

9.40-10.10 Arpita Yadav: ***“Role of Arabidopsis B-box protein BBX31 in photomorphogenesis and UV-B protection”***. Indian Institute of Science Education and Research, Bhopal, India.

10.10-10.40 Mansi: ***“Dissecting pathogenesis of Chilli leaf curl virus: Role of Phosphatidylinositol 4-Kinase type II and monoubiquitination machinery”***. ICAR-National Institute for Plant Biotechnology, I.A.R.I Campus New Delhi, India.

10.40-11.00 *Coffee break*

11.00-11.30 Thomas Gross: ***“Analysis of a Major Carpel Developmental Regulator: CRC’s Protein Domains and Non-Cell-Autonomous Action”***. Justus Liebig University Giessen, Germany.

11.30-12.00 Vignesh Venkateswaran: ***“The evolutionary ecology of dispersal in fig wasp communities”***. Birla Institute of Technology and Science - Pilani, Goa, India

\*Venue: Lecture hall “Z” in Ulls hus, Campus Ultuna.
